

# Caritas promotes an intercultural meeting

## A country of people

A caritas initiative

**Caritas**  
Katholische Kirche Vorarlberg

## The Aim

The successful cooperation of cultures and religions is for Caritas a key concern and it would like to make a contribution to this process. Intercultural conflicts often have their roots in differing perception and behaviour patterns and it is therefore important to get to know the other person and to experience something about that person's way of life and culture. Meeting someone personally provides the ways and means to achieve this and supports the intercultural dialogue. Caritas would like to initiate activity in this area and promote ideas, activities, measures and events that would lead to an improved cooperation between immigrants and the resident population. The aim of the submitted project has to involve a meeting between immigrants and local residents where exchange and getting to know each other takes place.

## What will be promoted / how will this be promoted?

Caritas would like to support intercultural meetings, not just through financial help, but also through professional resources. This means that Caritas will provide:

- Professional knowledge in order to develop the project.
- Spaces for events and similar activities.

The financial support for each project will involve a maximum limit of € 1,000. Caritas will provide assistance for certain costs such as payment for speakers, printing costs etc. The voluntary participation of the organisation / person who is organising the project is a condition for a submission. The submitted project / initiative does not have to be fully completed on submission.

## Criteria

- Different nationalities, cultures and religious groups are addressed and invited to participate through relevant advertising.
- The personal meeting of immigrants and local residents is given top priority.
- Men and women are given equal opportunities.
- The organisation is private
- Initiatives whose organisations involve different ethnic groups will be given preference
- The projects have to be realised by 30<sup>th</sup> June 2010
- Projects can be continuously submitted – the deadline for submission is 31<sup>st</sup> December 2009

## Submission and Jury

Submissions can be made using the submission form and sending it to the address below. Every three months an internal jury will make decisions on the submissions. The decisions of the jury are final and there is no further legal recourse to appeal. The end of the bidding is 31<sup>st</sup> December 2009.

The submission form must be filled out in full. Projects that receive support agree to submit a final report as well as a report on the expenditure of funds. This announcement is intended for people who live in Vorarlberg and are initiating projects that allow and support meetings between local residents and immigrants. The submission documents must be completed in the German language.

## Please send completed submissions to:
